Data Protection

Note: Regulatory bodies such as Social Services, Home Office, Immigration and Care Quality Commission have the right to access personal files for inspection purposes in order to verify compliance with legislation and CQC Regulations.

The Disclosure and Barring Service is the executive agency of the Home Office responsible for conducting checks on criminal records. We are a registered body for receipt of DBS disclosure information. Clients within the healthcare sector insist on agencies making informed recruitment decisions which require criminal record checks to be made on all staff.

It is a condition of proceeding with your application that you apply for a DBS disclosure.
